

# Helicopter Scenic Flights Over Lake Eyre Departing from Marree

*Book now to avoid disappointment!*

## BOOKINGS

03 5956 7316 or [info@pih.com.au](mailto:info@pih.com.au)

Lake Eyre is the lowest point in Australia at 15m below sea level and is the largest lake in Australia when it fills, covering a staggering surface area of 9500 km<sup>2</sup>.

During the 2009 floods the water in Lake Eyre covered a huge 800km<sup>2</sup> and the only way to see that sheer mass of water is by air. Phillip Island Helicopters has a base located in the town of Marree, located 90km south east of Lake Eyre.

Our helicopter flights depart Marree township daily between the months of May – October. During the flight you will discover the remoteness of the Lake Eyre region before reaching the pure white salt crusted Lake Eyre South. The flight then continues onto Lake Eyre North, tracking up the shoreline of Madigan Gulf, world famous for the land speed records of Sir Donald Campbell. Now for the best part, experience flying over the water of Lake Eyre at 500 feet in the driest region of Australia. During the return leg you will over-fly Jackboot bay en-route to Marree.

Whilst our flights are more expensive than that of the plane flights that are available, the visibility and comfort of our helicopters far outweighs the cost. We pride ourselves on our hospitality and compared to plane flights in the area, you are not just a number to us. Not only do our helicopter flights offer you better views and photo opportunities, your flight of Lake Eyre will be more personalised.

This is truly a once in a lifetime opportunity, so go ahead and see it the best way possible.

The 2010 season is set to be busy, please contact us **(03) 5956 7316** or email **info@pih.com.au** to make a booking to avoid disappointment!
